Cut in Water Rates Sought At Menlo Park

Carroll Is Confirmed As Police Chief In Split Vote

James O'Keefe Jr., city attorney, was instructed last night by the Menlo City council to gather necessary data on alleged discrimination in water rates charged by the Bear Gulch Water Company, which serves the Menlo-Atherton-Woodside area, to present his findings before the next meeting of the city council and to present an estimate of costs involved in placing before the California State Railroad Commission a plea for adjustment of rates.

That action was taken after James Armstrong, local engineer and sponsor of a move to reduce minimum water rates and increase rates charged to large consumers, had urged the council to take action.

O'Keefe told the council that it would probably cost the city at least $375 to present the case before the commission, and that the cost might be higher.

Councilman Hart expressed the opinion that the costs would not be excessive, inasmuch as a just equalization of rates rather than a general reduction is sought—in other words, the services of expert and costly technical witnesses would not be required.

Armstrong told the council that the present move for equalization is a matter of spending $300 or so in an effort to save $6000.

Carroll Gets Post

The council split again last night on the now-familiar three-to-two basis, when an ordinance making the police commissioner ex-officio police chief came up for a final vote, and when the council turned to a discussion of the proposed business license ordinance which is expected to effect a 50 per cent reduction in licenses paid by "inside" merchants.

The latter issue produced one of the sharpest debates heard in the tiny city hall since the new council took office in April, Councilman E. H. Hart charging that the Cooper-Carroll-Dunn group on the council is proposing to benefit some 103 merchants and overlook some 2500 taxpayers, and Councilmen Irving Dunn and Henry Carroll stoutly defending their license reduction plan.

When the ordinance making the police commissioner police chief came up for a final vote, Councilman Hart and W. H. Weeden, hold-over councilmen from the previous administration, voted against the measure, while the three new councilmen voted solidly to pass it. Under its provisions Henry Carroll becomes Menlo Park's chief of police.

The proposed license reduction plan has not yet advanced beyond the discussion stage, as the license ordinace has not yet been drawn up.

Councilmen Carroll, Cooper and Dunn, who were victorious in the recent municipal election, included in their platform a 50 per cent slash in business licenses paid by merchants with places of business located within the city limits. (There would be no reduction in licenses paid by "outside" firms selling merchandise in the city).

Dunn argued that the ordinary citizen who is in distress can apply for aid out of public relief funds but that merchants cannot. "The merchant is the forgotten man," he said.

The council made it clear that it is tired of facing a wrangle with insurance brokers and agents every time that the city is required to renew an insurance policy. If a suggestion made last night by Councilman Hart is adopted, Menlo Park insurance brokers will hereafter designate one of their number to deal with the council on all insurance business in the future, with the understanding that the commission will be divided among all brokers in the city who pay their licenses.

Two Dogs Poisoned On Atherton Estate

ATHERTON, June 11.—One dog is dead today, and another was dying on the Albert E. Schwabacher estate here as a result of having eaten meat containing poison and ground glass scattered along the service driveway of the estate.

Atherton police believe that the poison was placed between midnight and 7 a. m. yesterday. The police said that a clue was held as to the poisoner, and a passing motorist who may have seen a "slender man bent over, running from the place," is being sought.

The dogs were found in convulsions after they were let out of their kennels at 9 o'clock yesterday.

Emerald Lake Fire and Road Pleas Put Over

Special Tax Estimated At 50c and 40c For Items

Petitions to form proposed fire and road districts in the Emerald Lake region, filed Monday with the San Mateo County Board of Supervisors by interested property owners, were continued without action for one week.

The petition for formation of the fire district estimates that a special tax of approximately 50 cents per $100 of assessed valuation will be necessary to maintain the equipment desired.

It is understood by the property owners, according to the petitions, that the proposed West of Redwood Highway Improvement District will not require a tax greater than 40 cents per $100.

Approve Sera Agreement

The board approved the proposed arrangement between the County of San Mateo and the State of California whereby the county would bear 40% of the cost of relief activities in the year 1934-35.

Engineer James S. James informed the board that he will put 66 men to work for 14 weeks on a relief project on the La Honda road.

Robert J. Koshland, chairman of the relief committee, agreed to try to find additional jobs for San Mateo county coastside men as requested by Supervisor Manuel Francis.

Mrs. Ella Chase, Lomita Park, protested to the board that persons allegedly not in immediate need are securing county relief funds. The board informed her that it would consider any specific complaints.

Cambiano Removal Asked

Some 89 residents of the county petitioned the board to remove J. F. Cambiano as a member of the San Mateo County Relief Committee. The petition was headed by the name of Peter Klitsch of Redwood City.

The board, upon motion of Supervisor Rosalie Brown, San Mateo, agreed to take no action on the proposed removal until the supervisors hear the outcome of a proposed federal grand jury inquiry on the question of union activity on former CWA jobs.

Charles D. Wilson of Menlo Park objected to the presence of William F. Logue in the building inspector's office. County Executive Walter Kellogg explained that Logue was helping out during the illness of Building Inspector William Watson Jr.

Logue said that his duties as business agent for the building trades had been turned over to Edward Brady during his county connection.

Plea of Cities Over

Further continuance was voted on the plea of peninsula cities to share in the state gasoline tax moneys. Atherton, Hillsborough, Daly City and San Bruno supported the proposal.

Mrs. Mary Gervais of Burlingame petitioned for a position with the county library.

Dr. Clement Sheilds of Half Moon Bay was appointed in the place of Col. F. B. Crosse as a director of the Hait Moon Bay Sanitary District.

Demand that the board pay $38,242.42 on property acquired under defaults on 1915 bonds was made upon the county by the Pacific States Savings and Loan Company.

Five Topics Hold Interest Of Citizens

Committees of the Citizens' Advisory Board to study five special problems were named last night by Chairman Norman Pendleton and will seek data upon which to base tax reduction efforts.

Included is a committee on public utilities, of which Philip Owen was named chairman. Other members of this group are Mrs. J. E. Baughn, Carl Beeger and former Mayor William Dusel.

Dr. William B. Langston will head a committee to study the possibilities of constructive economies in the existing administrative setup. Assisting Dr. Langston will be J. E. Morrish, V. G. Uhlenberg, secretary of the committee, and H. E. Holmquist.

Clifton Woodhams was named to head a committee to inquire into the city water department with a view to making recommendations as to reductions or other matters. George Merrill, Mrs. Elizabeth [illegible], August Lueger and Z. [illegible]ng were named assistants.

W. O. Tyson was named chairman of a committe to inquire into the garbage question. He will be assisted by Eugene Fau, H. H. Duncan and Otis Carrington.

Wayne Millington was named chairman of the committee on the feasibility of transferring city tax collections to the county. John Gill, Charles Hildebrant and Clanence Choate are members of this committee.

In explaining the functions of the advisory board, Chairman Pendleton outlined its duties as follows:

1. Achieve economies without sacrifice of essential service or loss of efficiency.
2. Study local problems for the information of the entire citizenry by displacing rumors with facts and figures.
3. Study special problems referred to it by the city council.
4. Consider proposals which may be submitted by citizens.
5. Coordinate all civic and service organizations in behalf of worthy public enterprises.

McGrath Urges Vote on County Harbor Bonds

Sees In Development Only Hope for Cut In Tax on Homes

Strong belief in the wisdom of developing the San Mateo County Deep Water Harbor is expressed today in a letter from Congressman John J. McGrath to Howard I. Wood, manager of the Redwood City Chamber of Commerce.

McGrath expressed himself strongly in favor of the proposed $450,000 bond issue going before the voters in the August election.

"The fact that an election will be held for a port project bond issue does not mean that any money would have to be spent unless the government could help out," McGrath said.

"I am as convinced now as at any other time in my life that San Mateo county has just two ways out of the ever-increasing tax situation, namely, through the industrial development of our waterfront or the amalgamation to the City and County of San Francisco," he said.

"I am not advocating amalgamation, but we will be forced to it if we are not willing and anxious to develop our county within its own boundard lines and by its own people."

Continuing, McGrath said:

"We are educating San Francisco's children and there is nothing in San Mateo county to pay the cost except the little homes or the vacant lots or the undeveloped waterfront property."

McGrath said his support for the building of the harbor at Redwood City is based upon the belief that this was the most logical place for it.

"If any other place in the county was better or could more easily be developed than Redwood City, I would be for that. Redwood City is the logical place at the present time and later on possibly South San Francisco. I believe that if we allow this opportunity to pass we may as well forever forget the harbor and industrial development of San Mateo county.

Boy Bicycle Rider Badly Injured In Accident

Herbert Eitner, 14-year-old Boy Scout who resides at 85 Blenheim avenue, Dumbarton Oaks, suffered a possible fracture of the skull here Wednesday when he was thrown from a bicycle on Main street at Beech street.

The boy was given emergency treatment at the Mason Emergency Hospital and then taken to the Community Hospital for x-ray examination.

Young Eitner was towing himself behind a truck by a trailing rope when the truck gave a sudden jerk, causing him to fall, according to a report by Police Officer W. H. Thorpe. He struck his head against the pavement.

The driver of the truck apparently did not know that the boy was hanging on the rope and did not stop after the accident.

Mr. and Mrs. James Harris O'Brien are the parents of a daughter, born April 29. The little girl will be named Sharon.

C. A. Callaghan Enters Sheriff Contest Today

Ex-Chief Civil Deputy Announces Self For Post

Cornelius A. Callaghan, 45, former chief civil deputy in the sheriff's office, today announced himself a candidate for sheriff in the August primaries.

The candidate is a native of San Francisco and has been a resident and taxpayer of San Mateo county for the past 15 years.

Callaghan served an apprenticeship at the old Union Iron Works as a shipfitter and later worked as a bridge and structural ironworker during the rebuilding of San Francisco.

In 1914 he passed civil service examinations for the positions of jailer and bailiff and also for the position of office deputy in the San Francisco sheriff's office. He was appointed jailer at the Ingleside jail in San Francisco. He left the position during the World War to become foreman of hull repairs at the Union Iron Works.

Callaghan, president of the Boilermakers and Ironshipbuilders Local No. 6 in 1917, was sent as a delegate to the international convention at Kansas City.

In 1918 he was appointed chief hull inspector for the United States Shipping Board at South San Francisco. He remained there during the construction of 18 vessels and was responsible for the payment of over $18,000,000.

Came Here in 1925

The late Sheriff Thomas C. ("Brick") McGovern appointed Callaghan as chief civil deputy in May, 1925, and he remained in that position until March, 1933.

In 1927, Callaghan was shot twice and seriously wounded in a gun fight at Belmont which nearly cost him his life.

The candidate has been a member of the sheriffs' and undersheriffs' association for five years, serving two years on the executive board.

Callaghan, in his announcement, declares his intent to give "strict personal attention to the duties of the office" and that the staff will be "courteous, diligent and fearless in the performance of any duty assigned to them."

He plans 24 hours service from the office, with a night patrol in the unincorporated territory. This patrol would have radio equipment.

Plans for Lamb Week Announced By Safeway Stores

Three thousand meat markets operated by Safeway Stores, national retail food concern, will launch their third annual mass sales drive on lamb beginning Friday morning, June 15, and ending Saturday evening, June 23, according to an announcement just received from Mr. C. H. Murphy.

This effort will cover eighteen entire states west of the Mississippi. It is the outcome of five months of intensive planning.

Starting mainly with the West's leading newspapers, all known advertising media will be employed. All cattle growing fraternities, meat institutes and farm bureaus will push this effort to again benefit the industry of lamb production.

Additional men will probably be employed to take care of the increased trade, Murphy reports, and from past experience, gratifying results, beneficial for everyone from producer to consumer, are expected.

Last year Safeway Stores bought more than 1,023,000 lambs, according to their local executives, and this year they expect to increase their purchases so as to give further support to the growers.

'Y' Camp Reservations Exceeding Expectation

At the rate that boys from Redwood City and the peninsula are making applications for Camp Yu-Mi-Ci-A, the boys' camp of the Young Men's Christian Association in the San Mateo County Memorial Park, indications point to closing of the first two-week period the first of next week to all but those desiring to stay the full period of four weeks. The camp dates are July 1-29.

Because of the popularity of this camp the committee in charge decided to add two extra weeks of camping so that the number of boys during each period could be kept down. This makes possible for boys to have four full weeks of camping on a weekly basis. The cost is $7 per week.

The earliest known mechanical toy dates back to about 2000 B.C., and is of Egyptian origin.

REVISED PLANS DRAFTED TO GIVE REDWOOD CITY SMALLER FEDERAL OFFICE

Revised plans for Redwood City's proposed postoffice building are now being discussed in Washington by the treasury department to provide a smaller building than that originally intended because available funds will not go as far under increase in market prices, Acting Postmaster Robert E. O'Connell Jr., of Redwood City, was notified today.

O'Connell's information came from Louis A. Simon, supervising architect, after O'Connell had written to inquire into the status of the Redwood City project.

Simon informed O'Connell that the treasury department is now conferring with the post office department to see if smaller space requirements will not be satisfactory.

The postoffice site on Jefferson avenue, between Broadway and Middlefield road, has been cleared for some time awaiting start of construction on the new federal building.

Some $80,000 was originally intended for the building.

Simon's letter to O'Connell follows:

"Acknowledgement is made of your letter of May 24 requesting information as to the present status of the contemplated post office building for Redwood City.

"Owing to the constant rise in the market prices, funds available for the building are not sufficient to erect a structure of the size and character originally contemplated.

"In an effort to bring the cost of the structure within the amount available, negotiations are now in progress with the post office department with a view to reducing the amount of space previously requested by that department.

"Your interest in this matter is appreciated and you may be assured that everything possible will be done to expedite placing of the work on the market for bids at the earliest practicable date."

County Funds Delayed

Federal funds for proposed additions to the San Mateo county relief home, and possibly the courthouse additions and proposed office building, are being held up in Washington for additional information, F. E. Trask, state engineer, informed the supervisors today.

Detailed information on these projects has been in Washington for many months and the possibility that it was sidetracked was seen in the Washington request. The matter was referred to the planning commission.

Junior College Plan Rejected

San Mateo Citizens' Group Opposes Removal

SAN MATEO, June 13.—Opposition to the calling of an election to determine whether $80,000 shall be spent by the San Mateo High School and Junior College District to move the junior college to a Burlingame site was expressed in a resolution adopted last night by the San Mateo Citizens' Committee studying the proposal.

Three members of the college board of trustees, William Eddy, Col. Charles N. Kirkbride and A. S. W. Grundy, were present at the meeting.

They declared it to be their belief that unless the $80,000 surplus is spent it will be deducted from the next state appropriation.

All three favored the expenditure for a site.

A letter to the citizens' committee from Vierling Kersey, state education director, was quoted as saying that in no case could the school funds revert to the state.

Dodge Is Selected Checker Club Head

James Dodge was announced today as president of the newly-formed Redwood City Checker Club which organized in the office of County Clerk Elmore B. Hinman.

The club will meet every Thursday night in the firehouse. Twenty members signed the charter roll and it is hoped to increase this number to 50 at the next meeting, June 14. All persons interested in checkers are invited to attend.

Hard Water Is Very Harmful to the Skin

Hardness in water is one of the greatest causes of chapped, coarsened skin, clogged pores and dryness. These troubles come, it is known, from the mineral impurities, called hardness, that form clinging ,curd-like substances and instantly lodge in pores.

In communities, such as Redwood City, with a hard water supply, homes are being modernized with the installation of water softeners which asssure the family of an adequate supply of soft water for all uses. Bathing, shaving, shampooing, etc., is much more satisfactory in soft water than in hard. Soft water is good to the skin.

General business and employment in Java are improving.

Explosions, Fire Destroy House In San Bruno

SAN BRUNO, June 13.—Three explosions and a fire that destroyed a San Bruno home last night with an estimated loss of $300 were being investigated today by the state arson board.

One side of the home, at 257 Cypress avenue, was blown out by the explosions at 9:20 p. m. The fire followed. Occupants of the house were not present at the time of the conflagration.

Holes were found to have been drilled through the floor, and a can of gasoline and a bottle of whiskey.

Mr. and Mrs. A. Di Giovanni, the occupants, declared neither the can nor the bottle was theirs.

A puffin can continue to catch fish, even though it already may have several in its beak: it carries them with their heads all ranged in the same direction.

STRANGE HISTORY OF LUBRICATION IS TOLD

Charles D. Griffith, left, chemist, and S. W. Dubbins, center, lubriention engineer, of General Petroleum Corporation, watch pumping of a delivery of lubricating oils aboard the S.S. President McKinley. At the right is A. R. Gardner, purchasing agent for the American Mail Line. General Petroleum chemists and lubrication engineers inspect the turbines of these great liners every time they dock.

When the modern engineer has a lubrication problem, he calls in the chemist of an oil company for a diagnosis and the proper lubricants are prescribed for his individual needs. But, there was a time in the dim, distant past when lubrication problems were solved by calling in the fatted calf, says A. J. Donnelly, Northern California division manager for General Petroleum Corporation, marketer of General Mobilgas and Mobiloil.

Among ship lines for which General Petroleum provides lubricants are the American Mail Line and the Admiral Line. Whenever these big boats come in to port, chemists and engineers of the oil company make a special investigation of the reactions of the various oils and greases that keep the mighty turbines turning on the long Oriental runs. There can be no mistakes, as a disabled steamer is helpless at sea and may cause untold loss of lives and property.

Tiger Fat

Back in the early days of lubrication, however, Donnelly points out that no such problems existed. It seems likely that the first crude attempts at lubrication were coupled with varying fortunes of war. Tiger fats were used to deaden the noise of stealthily approaching chariots, and it is highly probable that the fat of slaughtered cattle was also utilized for the same purpose. The ordinary civilian used pitch or tar for his crude wooden wheels. Asphaltic pitches were used at a fairly early date, and, no doubt, the ancient Phoenicians lessened the creaking of their oars in hostile waters by the use of some such substance. The main idea seems to have been the minimizing of noise, rather than the reduction of friction. Greases, tars and solid fats were more suitable than oils for the crude bearings and large clearances of ancient vehicles. It is an interesting fact that soap was first used as a lubricant before it entered the field of personal cleanliness.

Friction Problem

Reduction of friction did not become a problem until the introduction of hand and foot power machines in the Eleventh Century. The beginning of modern lubrication began in the first half of the Eighteenth Century, coincident with Stevenson's locomotive and Fulton's steamboat. The lubricants were animal and vegetable oils exclusively, but by 1850 the refining of petroleum oils was making rapid strides and whale oil, seal oil, lards and tallows were gradually being displaced.

Today, the world's wheels turn entirely on petroleum lubricants and all large oil companies such as General Petroleum maintain important departments in chemistry and engineering where new grades of oil are constantly being perfected, Donnelly states. The rattle of chariots is lost forever, but the science of modern lubrication will continue to make smooth the passage of ships at sea, straighten the road of the motorist and speed the flight of the aviator. Without it, modern transportation could not exist.

WATERMELON
. . . . for instance

Iced watermelon, cool and dewy, comes with all its luscious flavor intact. Nothing better! But *dry* watermelon—pithy and tasteless. What could be worse?

Right there's the difference between *dry* cold, that steals the juices and flavors from your foods, and the *non-drying* cold that only *ice* provides. Think twice and you'll use *ice*.

1934 Ice Refrigerators give *lower temperatures* with *less ice*. Better than the best mechanical substitutes; yet size for size, they cost only a quarter as much. Prices start at $24.50. Easy terms. Liberal allowance on your old ice-box.

For safe cold . . . plus flavor protection . . use ICE

Weight Reduced From 180 to 137

'Wonderful,' She Says

Here's today's story of a woman who knew she carried too much fat and decided the right way to get rid of it—just a few words that wise fat folks should heed—worth reading.

"I use Kruschen Salts to reduce. It's wonderful. Take it daily and eat what I want and still lose. I did weigh 180, now 137. Want to get down to 125." Mrs. Leonard Bass, Ft. Atkinson, Wis., Feb. 6, 1934

When you take one half teaspoonful of Kruschen in a glass of hot water—you not only lose in weight but you put healthy activity into your whole body—you feel younger and look it—get it at Sequoia Pharmacy or any drug-store in the world.

Every satisfactory sale is made because the buyer has confidence that the seller will deliver the right quantity and quality at a fair price and render correct service. Until that confidence is created there is no such thing as a sale; confidence is a matter of slow growth. That is why we value so highly our record and reputation of nearly five years and are proud to pledge them both in the maintenance of high standards in the industry which we serve. We will not manufacture, market or indorse a single product unless we are positive of its superior quality and that it will stand the acid test of the most critical feeder.

"Well, son, *that settles it*"

"THIS is the second time you've lost a good job on account of that watch.

"I don't blame your boss for demanding punctuality. And I can't blame *you* for your watch going wrong.

"I've been planning to get you a real timepiece for your birthday. Now I'll buy it right away. We can't afford to wait when your success is at stake."

"Thanks a lot, Dad. It'll sure seem good to get rid of that double-crossin' ticker. You've always told me that it pays to put quality ahead of price.

"I tried to beat the game. But I guess it can't be done. After this I'm for QUALITY—first, last and always."

QUALITY LEAGUE OF AMERICA

The object of the *Quality League of America* is to cultivate a better understanding of the extra value and added satisfaction you can obtain by making *Quality* the first consideration in every purchase.
